

MAT 296 — SPRING 2007 — HOMEWORK 1

Name: _____

What's your major? _____ minor? _____

year? (frosh, senior, etc.) _____ dorm/off-campus? _____

When/where did you take Calc I? _____

Tell me something about yourself. Go on, spill it. Give me one thing (or several!) that sets you apart from your peers.

If you can't think of anything, here are some questions you could answer: Why are you in college? Why here at Syracuse? What's your dream job? Why did you choose your major? Do you like math, and why or why not? Did you like your high school math teachers? Tell me about them. Last resorts: what's your favorite band, artist, song, movie, book, school subject, sport, place, or word? And why?

Last step. Sign and date here to indicate that you have (a) found the course web page, and (b) read and understood the policies for this course.

Due on: Friday, January 19.
